PERSONAL INFO

Aspiring Computer Science graduate and AI enthusiast with strong problem-solving skills and a passion for technology. Proficient in Python with a solid foundation in software development. Eager to learn, adapt quickly, and contribute to impactful real-world software solutions.

EDUCATION

Federal Institute of Science and Technology, Ernakulam

Bachelor of Technology (B.Tech) in Computer Science and Design | 2021–2025

CGPA: 7.16

St. Augustine Higher Secondary School, Kuttanellur

HSE, May 2020 (Percentage : 91.8)

SSLC, May 2018 (Percentage : 98)

SKILLS

Technical Skills: Python | Machine Learning | Pandas | NumPy | Scikit-learn | Django | LangGraph

INTERNSHIP & TRAINING

- Data Science & Machine Learning Program (Ongoing) – Luminar Technolab

CERTIFICATIONS

- Oracle Certified: OCI AI Foundations Associate (2025)
- Completed foundational training in Artificial Intelligence, covering AI concepts and responsible AI usage (YUVA AI for All – Government of India)
- Google UX Design Certificate (issued by Google)
- Business English Certificate (B1 Level), Cambridge Assessment English

PROJECTS

- **Code Crafter**
Code Crafter is an AI-powered coding assistant built using Python, LangGraph, and Large Language Models (LLMs) that functions as a multi-agent development system to convert natural language requirements into complete, working project, file by file.
- **House Price Prediction System**
A platform that predicts property prices and generates AI-powered personalized interior designs, streamlining real estate decision-making by combining machine learning models with advanced AI image generation tools. Built using Django (Python) for backend development, SQLite for data storage, Hugging Face-based generative AI for interior design visualization, and HTML/CSS for the user interface
- **Online Warehouse Management System**
Expanded an online warehouse management system using React.js, Node.js, and MySQL to streamline and monitor the movement of goods within the warehouse.

PERSONAL TRAITS

- Quick learner with a strong interest in emerging technologies
- Problem solving
